On a recent NPR news story, they mentioned that recently Newton had implemented an ordinance around the use of leaf blowers. I do not know the details, but it seemed like something worthwhile looking into as the use and frequency of these noisy devices has increased. Its is especially concerning for use early in the morning, especially on weekends, when children or teens are trying to sleep in.

Is this something Natick is also considering, or would consider limiting the times these devices can be used?

Thank you for your consideration.

Hello Mr. Williams. Natick does not have a noise bylaw, and I am not aware of anything up for consideration. I will include your email in the Correspondence section of the Selectmen's Meeting Agenda for Monday, November 13, 2017 for their review.
