

Opioid Task Force Community Awareness Event & Art Project

While an increasing number of Natick residents are aware of the opioid crisis in Massachusetts and across the nation, many remain unaware of the Natick's response to the crisis, how to reduce the risk of addiction in their homes, what to do if their family experiences a substance use disorder, and what they can do to reduce stigma and support community efforts to stem the tide of the opioid crisis. 'Stations' touching upon these themes will be set up on the north side of the Common with volunteers and signage that will direct community members towards information on these topics. Additionally, residents of all ages will be engaged in the creation of a community art project that will be publicly displayed in Natick after the event.
