Hi Patricia,

Thanks for emailing me back.

I would like to request to occupy the public way on Adams Street by placing a dumpster behind the back door of our location at 26 Main Street. We got the permit before however the building permit was not ready so we could not do anything. I would like to have the dumpster during our construction time July 23rd until September 7th. If the Selectmen are meeting on the July 23rd we can move the beginning date to July 27th. Please let me know what info I should provide. Thank you

Brian, recommendations? Mr. DeAlmeida was approved before but apparently never used the dumpster. I will put this on the 7/23 agenda if you have time to make a recommendation.

Trish,

Consistent with our last recommendation we would recommend approval, except in this instance we would like the dumpster removed by Friday August 31st in order to prepare for Natick Days, which has been approved to close and utilize Adams Street for their event. Additionally, just to reiterate, passage through the street by vehicle and pedestrians must be maintained at all times.

Respectfully submitted,

Lt. Brian G. Lauzon

Gus, we will put this on the 7/23 agenda -- no need for you to attend the meeting. I received a recommendation from the Police Department to remove the dumpster by Friday, August 31st in preparation for our annual Natick Days event. If the Selectmen approve your request, you would have the dumpster from July 24th until August 31st. I will notify you on the 24th as to whether your request has been approved or not.
