

SUSTAINABILITY COMMITTEE

BOARD DETAILS

OVERVIEW

SIZE 7 Seats

TERM LENGTH 3 Years

TERM LIMIT

Committee Objective

The Sustainability Committee hereinafter referred to as the "Committee" shall provide the Town of Natick and the Natick community at large with active leadership and practical solutions in reducing costs, mitigating environmental impacts and preparing for future environmental challenges. In this capacity, the Committee will be responsible for:

- Evaluating Natick's environmental impacts, challenges and opportunities.
- Recommending sustainability goals and prioritizing their implementation.
- Engaging municipal and school departments, businesses, institutions and volunteer groups to achieve sustainability goals.
- Supporting the implementation of sustainability programs.
- Monitoring and measuring the effectiveness of sustainability programs undertaken by the Town.

The Committee will work collaboratively with various departments, including Community and Economic Development, Facilities Management, Public Works, and Natick Public Schools, as well as other Town and School Committees, to advise on sustainability issues and implement Committee goals. As needed, members from various Town departments and Natick Public Schools may be asked to serve as liaisons to the Committee based on project needs.

Composition and Terms of Office

The Committee shall be comprised of seven (7) voting members, including the Natick Town Administrator or her designee and the Superintendent of Natick Public Schools or his designee. The Committee will receive staff support from the Sustainability Coordinator.

Qualifications for serving on the Committee include having expertise in and a passion for sustainability.

Committee members should have demonstrable experience in areas such as environmental law, environmental education, corporate responsibility, environmental science, energy management, environmental health and safety, sustainability communications, green building, land use planning, water conservation, resiliency planning, or other related fields.

Based on the composition of the Committee and its need for specific areas of expertise, the Town Administrator or her designee, in consultation with the Committee, will provide the Board of Selectmen with specific preferred attributes and skill sets of prospective members prior to the advertising of Committee vacancies.

Appointments will be made by the Board of Selectmen. Committee members appointed by the Board of Selectmen shall serve for a term of

three (3) years except that one (1) of the initial appointees shall serve for a term of two (2) years and one (1) for one (1) year so that one such member's term will expire on an annual basis. All other members shall serve for a term of three (3) years. Terms shall coincide with the fiscal year (effective July 1) and expire on June 30th. The Committee shall meet no less than 10 times per year, and more frequently as warranted. At the first meeting after the start of each new fiscal year, the Committee shall conduct an organizational meeting to elect from its members a Chair, Vice-Chair and Secretary.

Which Boards would you like to apply for?

Sustainability Committee: Submitted

Are you a registered voter in the Town of Natick?

☒ Yes ☐ No

Have you ever attended a Natick town meeting?

☐ Yes ☒ No

Have you ever served on a board, committee, or commission in the Town of Natick?

☐ Yes ☒ No

If yes, please list name(s) of board, committee or commissions, along with date(s) of service:

Interests & Experiences

Why are you interested in serving on a board or commission? Are there any changes you would like to see to these boards, committees and/or commissions?

Even though I haven't served in any boards, committees or commissions in the Town, or attended a town meeting before, I would like to start to contribute more, be more active and get involved with local politics, and I see this is as an excellent opportunity to do so. I am a Registered Professional Civil Engineer and the Design Engineer for the City of Newton DPW. I am not a sustainability expert, but through my work, continuing education and personal interest, I have had exposure to climate resiliency, green infrastructure and stormwater management. In addition, due to my upbringing in Costa Rica and having young children, I am enthusiastic about the environment and passionate about sustainability. I believe that my background would be a valuable asset to the Natick Sustainability Committee and thank you for considering me as a candidate.

Are you a graduate of the Natick Community Services Citizen's Leadership Academy?

☐ Yes ☒ No

Please list any skills or specialized knowledge you can bring to these boards, committees and/or commissions.

Civil Engineering with more than 13 years of experience working in this industry on both private and public sector roadway (complete streets) and land development projects from preliminary to final design and construction; development of technical construction specifications; mentoring; knowledge of climate resiliency, green infrastructure and stormwater management; enthusiasm about the environment and passion for sustainability.

Please list any professional affiliations.

Registered Professional Civil Engineer in the Commonwealth of Massachusetts; Member of the American Society of Civil Engineers and Boston Society of Civil Engineers Section.

Let us know what other specialized interests or hobbies you might have.

I am fluent in English and Spanish; I like to volunteer for causes that I am passionate about, like social services, the environment, education and children; I play the guitar; enjoy reading, running and playing soccer when I have a chance.

If taking into consideration unofficial town committees, I am a member of the Natick Earth Day committee, which organizes and hosts the annual Earth Day festival on Natick Commons. 2014-present

Interests & Experiences

Why are you interested in serving on a board or commission? Are there any changes you would like to see to these boards, committees and/or commissions?

In addition to being the founder of CrunchTime Environmental Education Fundraisers, a unique and very successful niche' company that built a strong partnership with Newman's Own Organics, I offer 32+ years of involvement in various capacities with a wide variety of environmental and conservation organizations. Those experiences spawned a dedication to grassroots advocacy that only continues to grow, along with a deep passion and commitment for protecting the only home we will ever know—planet Earth. At the request of Leo Ryan, I attended my first Sustainability Committee meeting on June 7th, to provide an update on Renewable Natick—which I am a founding member of, and to meet the other Sustainability Committee members and learn more about past successes, current projects, and future goals. I was impressed with Leo's leadership in conducting the meeting, the deep level of knowledge the members clearly had during our various discussions and the suggestions they made for accomplishing their agenda. So, no, after attending just a single meeting, I cannot think of any changes I would like to see.

Are you a graduate of the Natick Community Services Citizen's Leadership Academy?

☐ Yes ☒ No

Please list any skills or specialized knowledge you can bring to these boards, committees and/or commissions.

If being committed and persistent is a skill, then I bring a level that is unparalleled. Once I commit to seeing something through to fruition, I am unstoppable. Such as being the only charter member of the Boston Recycling Coalition to stay with the group and attend every single monthly meeting the entire 5+ years till we achieved full curbside recycling; pulling three “all-nighters” in a row for the Executive Office of Energy and Environmental Affairs compiling, editing, and formatting information after weeks of research and phone calls, to meet a deadline for a revised state-wide Environmental Education Resource Guide for teachers, which I expanded from sixteen 8½ x 5½ pages to sixty 8½ x 11 pages; to standing up to Boston’s DPW commissioner at our monthly Mayor’s Recycling Advisory Committee meetings to counter every effort he made to thwart our effort to launch a full, city-wide, single-stream recycling program. I also planned and choreographed the Boston Recycling Coalition’s unforgettable kick-off mock “Town Meeting” (our “Recycling Revival”) that was held in September 1989 in the same 2nd floor Great Hall at Faneuil Hall where our forefathers held so many meetings and protests some 240 years ago, profoundly impacting and shaping this country; produced and edited CrunchTime’s educational video about the tropical rain forest which was shot on location in Costa Rica; was a contest judge for the live presentation at seven straight Massachusetts’ Envirothon competitions; spent ten weeks traveling around the country one summer camping in state and national parks while collecting data and writing a 14-week environmental education unit while a student at Lesley College (now University). Lastly—and I could go on, relentlessly, I traveled extensively up and down the East Coast by car exhibiting at trade shows promoting CrunchTime, drumming up so much business, Paul Newman’s daughter’s business partner wanted me to spearhead a fund raising division within Newman’s Own Organics at their Aptos, California headquarters. Too many anchors on the East Coast preventing me from making that move to California. Then I found Natick, my home of 15+ years, and probably for life. And while I’m still above ground, I’ll do everything within my power to make it the greenest community in Massachusetts. Whatever technical skills or know how I lack, I believe I make up with creative, out-of-the-box thinking and my overarching commitment to protect and preserve Earth’s myriad ecosystems, which are all being assaulted by the effects of Climate Change.

Please list any professional affiliations.

Current: Renewable Natick – Founding Member; Keep Natick Beautiful – Treasurer; Natick Earth Day Committee – Planning Group member and event planner; Delegate for Mass Dems at the 2018 Democratic Convention in Worcester; Toastmasters International Past: - Watertown Recycling Committee – recycling drop-off center volunteer; - Boston Recycling Coalition – charter member, treasurer, and later chair; - Mayor’s Recycling Advisory Committee – steering committee member; - Secretary’s Advisory Group for the Executive Office of Energy and Environmental Affairs – steering committee member. Oversaw research and was the lead author of the revision and expansion (to 64 pages from 16 pages) of: “Environmental Education in Massachusetts – a Resource Guide”; - Massachusetts Environmental Education Society (MEES) (State chapter for NAAEE) – exhibit hall coordinator, treasurer, and later president; - North American Association for Environmental Education (NAAEE) – liaison for MEES; later exhibit hall coordinator for the 1999 annual conference held in Boston; - New England Environmental Education Alliance (NEEEA) – liaison for MEES; - Massachusetts Association of Science Teachers (MAST) – established a partnership between MAST and MEES; - MassPIRG - steering committee member for several ballot initiatives; called to present testimony at the State House on several occasions, and was hand-picked by the Solid Waste Program Coordinator to fill her position while she was on maternity leave. - Massachusetts Envirothon – contest judge for seven straight years - Round-up for the Rainforest - treasurer - Earth Day Boston – (a collaboration with First Night Boston and the Franklin Park Zoo) steering committee member for our involvement with the First Night Parade; - Boston City Hall and the Mayor’s Office – contest judge for the annual Earth Day poster contest for elementary school students; - Suffolk County Grand Jury – assistant foreperson for the City’s most notorious murder case since the Boston Strangler - Jobs For Bay State Graduates – contest judge conducting mock interviews with high school seniors to evaluate their resume’ writing and interviewing skills.

Let us know what other specialized interests or hobbies you might have.

Learning more and more about our planet, its ecosystems—the fabric of our life, and how to protect them; home renovations and energy conservation (have made extensive improvements—going from a single oil-fired boiler for both units, to two high efficiency gas boilers, to installing 27 solar panels and adding a mini-split with four heads to almost completely heat and cool my second and third floor unit. I have also done many interior improvements as a DIYer (e.g., building an extensive “California-style” closet, renting a van to pick up in NYC and then installing with the help of a friend, a wrought iron spiral staircase I found on ebay) to my 1870 two-family home, and transforming it into a showcase property); cabinetmaking, cooking, gardening, landscaping, running (have run many 5 and 10k races, completed a 25k in less than two hours, and completed the Boston Marathon on a bipartite patella (kneecap in two pieces), falling short of the official 3:30 qualifying time by about 20 minute; biking (have completed the two-day, 192-mile Pan Mass Challenge), hiking, camping, kayaking, skiing, tennis, golf, basketball, backgammon and other board games, reading, writing, public speaking, travel (spent ten weeks and covered 15,500 miles traveling all around the country and parts of Canada, exploring our National Parks and camping out the majority of the time). Lastly, as further commitment to the environment, I now drive a second-hand Ford C-max Energi: a combination plug-in electric/hybrid vehicle.

Alfredo Vargas, PE

Design Engineer at City of Newton

aljvar@gmail.com

Summary

Experienced Design Engineer with a demonstrated history of working in the private and public sector industries. Skilled in AutoCAD Civil 3D, Transportation Engineering, stormwater management and roadway design.

Experience

Design Engineer at City of Newton

March 2017 - Present

Vice Chair of the Transportation and Development Institute

July 2016 - June 2017

As the Technical Committee Chair, I was responsible for planning and organizing the various technical events that the Transportation and Development Institute offered throughout the year.

Project Engineer at VHB

April 2014 - March 2017

- Used advanced design skills to perform engineering design tasks for roadway and land development projects from preliminary to final design
- Developed plans, specifications, cost estimates, reports, and prepared final bid packages for several projects of moderate scope
- Assisted upper level management with project decisions regarding technical approach, cost and scheduling
- Managed and mentored engineering staff on project assignments
- Performed project QA/QC
- Represented VHB and participated in new business development

Engineer at Fay Spofford & Thorndike

April 2005 - April 2014

- Used advanced design skills to prepare roadway, drainage and stormwater management designs to produce contract documents from preliminary to final design for public agencies
- Assisted senior staff and upper level management with the preparation of roadway and park designs, construction administration and construction oversight
- Responsible for overseeing the construction of several Capital Improvements Projects in the City of Boston

Alfredo Vargas, PE

Design Engineer at City of Newton

aljvar@gmail.com

Civil Engineer Intern at KIREBE S.A.

August 2003 - August 2004

- Responsible for providing assistance to the resident engineer during construction of horizontal and vertical residential projects
-

Volunteer Experience

Soccer and Basketball Coach

Apr 2016 – Present

- Coach and assistant coach of Natick's elementary school intra mural soccer and basketball teams

Boston Society of Civil Engineers Section

Jul 2016 – Jun 2017

- As the Technical Committee Chair for the Transportation and Development Institute (T&DI), I was responsible for planning and organizing the various technical events that the T&DI offered

Watertown Food Pantry

May 2014 – Mar 2017

- Monthly trip to the Watertown Food Pantry to pack and sort groceries to home bound families

VHB Green Team Member

Sep 2014 – Mar 2017

- The Green Team identifies and implements sustainability actions in our offices
-

Education

Universidad Autónoma de Centro América

Bachelor of Science (BS), Civil Engineering, 1999 - 2004

Universidad Nacional

General Studies, 1998 - 1998

Honors and Awards

Greenough Boulevard Greenway Expansion, Watertown/Cambridge, MA, ACEC/MA 2017

Project team was the Engineering Excellence Awards Gold Award Winner

W (508) 315-3456
M (617) 680-5855

Employment:

CrunchTime Environmental LLC 1994-present – Co-founder and now Sole Owner

Was recruited by a fellow Lesley College student to start a healthier fund raising company. Later engineered a non-cash option to buy out his half of the company. Then teamed up with *Newman's Own Organics*. Today, after nearly two decades of being a niche' distributors to schools and NGOs, offering chocolate to sell as a fund raiser, first *Tropical Source*, then *Newman's Own Organics*, CrunchTime has reinvented itself as a lifestyle company offering free online information about a wide range of environmental issues, and offering eco-friendly products that help to mitigate much of the environmental degradation taking place, while donating a huge amount of its profits to the congressionally-chartered *National Forest Foundation* to plant CO₂-absorbing, oxygen-producing trees in national parks all across the country.

Monroe Stationers 1991-1992 – Outside Sales Representative

Working out of Samuel Narcus Stationers, Boston's oldest stationery store, located on Washington Street in Downtown Crossing, met with prospective clients to sell them on the merits of doing business with us. Also assisted customers at the store with custom printing needs. A year later *Staples* moved in around the corner, and the owners decided to close the store. I was the only employee retained, moving to their Brighton headquarters where I was chained to my desk.

ProFile Employment Agency 1988 – 1991 Temporary Placement Coordinator

Hired to resurrect a client base that had been abandoned by the previous Temporary Placement Coordinator, who was instead spending his time opening an employment agency in Milford. Increased bookings more than 300% the first year, regaining the trust and business of *Boston Scientific*, *Lilly Truck Leasing*, *Boston Ballet*, and *Necco Confectioners* among many other businesses with a major presence in and around Watertown.

Bank of Boston – 1986 – 1988 Zenith Group Teller

Originally hired to train tellers, I was promoted to serve High End Customers with a Net Worth of \$100,000+ at the Brighton branch.

Education:

Lesley College BA: Environmental Education 1994
University of Southern Maine: AAS Business Management 1985
Paul Smith College AAS: Hotel and Restaurant Management 1980

Advocacy Work on Behalf of the Environment:

Renewable Natick – Founding Member
Keep Natick Beautiful - Treasurer
Natick Earth Day Committee – Planning Board Member
Massachusetts Environmental Education Society - President
Secretary's Advisory Group for Environmental Education – Steering Committee Member
MassPIRG – Steering Committee Member for several ballot initiatives
Boston Recycling Coalition – Chair

Which Boards would you like to apply for?

Sustainability Committee: Submitted

Are you a registered voter in the Town of Natick?

☒ Yes ☐ No

Have you ever attended a Natick town meeting?

☒ Yes ☐ No

Have you ever served on a board, committee, or commission in the Town of Natick?

☐ Yes ☒ No

If yes, please list name(s) of board, committee or commissions, along with date(s) of service:

Interests & Experiences

Why are you interested in serving on a board or commission? Are there any changes you would like to see to these boards, committees and/or commissions?

I recently participated in the Natick Citizen Leadership Academy and was introduced very fully to how Natick's government works, and would like to be more involved in the community. Specifically, I was attracted to the Sustainability Committee because it is set up to address issues I care about and advocate for policy changes to improve the town in ways I think will benefit the town over the longterm.

Are you a graduate of the Natick Community Services Citizen's Leadership Academy?

☒ Yes ☐ No

Please list any skills or specialized knowledge you can bring to these boards, committees and/or commissions.

I am a skilled writer, editor, researcher and presenter. Most of my work has been in the corporate sphere and in the arts, but there are definitely skills that transfer broadly. I'm quite capable of writing, improving, or contributing to qualitative and quantitative research plans, and designing presentations. I've also done a small amount of grant writing in the arts, which I believe also is a transferable skill.

Please list any professional affiliations.

Let us know what other specialized interests or hobbies you might have.

While I do not have professional certification in relevant environmental disciplines, it is an area of interest. We have home solar through Solarize Natick, we compost and garden, and have made our house as energy efficient as possible through MassSave programs. I read widely, including on environmental and energy issues.

SUMMARY

I'm an editorial and user experience pro with a strong ability to synthesize information from multiple sources into a coherent, original, and compelling whole. In addition to having broad training, marketing, and communication experience, my background allows me to bring together insights from usability and design thinking, creating results that are user-focused, more engaging, and designed for measure.

PROFESSIONAL EXPERIENCE

CVS Health

Senior UX Writer

May 2018 – present

- Responsible for developing copy and content strategies to help customers choose and receive the prescription coverage that's appropriate for their needs through Medicare Part D plans, and to help pharmacists and benefit managers provide the right care and support to patients.

BREDIN

Marketing Director

May 2017 – May 2018

- Communicated the firm's mission and strengths to a niche audience of corporate marketers and sales leaders. In March 2018, we were named a top 20 content marketing agency globally by Agency Spotter.
- Created and maintained Bredin's content marketing plan and calendar to make sure research, webinar, and content initiatives were on track, effective, and that they reinforced one another.
- Evaluated and revised all Bredin marketing pieces and digital assets to keep them focused, useful, and aligned with strategic objectives.
- Oversaw web analytics, email marketing, and webinar series.
- Developed and coordinated marketing research programs.
- Advised clients on best practices in content marketing and SEO.

FIDELITY INVESTMENTS

Principal Content Strategist

January 2014 – May 2017

- Partnered with product and engineering teams to conceptualize and deliver multi-channel communication campaigns for enterprise-wide IT initiatives.
- Coordinated with product owners, subject matter experts, and developers on creation and improvement of large volume of customer-facing content in Drupal CMS environment.
- Coordinated with support team to maintain and update knowledge management system.
- Wrote and edited marketing and training materials, created videos, and led training webinars.
- Trained product teams to provide distinctive, clear, and creative communication to users.
- Monitored campaign performance to adjust communications based on traffic and engagement.
- Served as community manager for enterprise social collaboration platform.
- Advised on and implemented SEO strategies.

- Conducted research and advised on best practices in document and site design.
- Served as ad hoc consultant and writer for UX teams in need of content, editing, or research.

BEDFORD/ST. MARTIN'S

Executive Media Editor, Bedford e-Portfolio

April 2013 – December 2013

- Determined strategy for development and rollout of a major educational software initiative.
- Directed the communication and training process for in-house employees and sales force.
- Created marketing and training materials, including web guides, videos, and presentations.
- Managed team that presented to, trained, and supported new users.

Market Development Manager, Media

November 2010 – April 2013

- Conducted research efforts to both develop new products and seed adoptions.
- Ran surveys, questionnaires, usability tests, focus groups, and interviews with users.
- Represented the customer in design and development meetings.
- Trained sales force on new products and sold new products in the field.

TRIPADVISOR

Senior Copywriter

June 2009 – October 2010

- Developed and revised content for online, mobile, video, and print marketing initiatives.
- Collaborated with third-party business and marketing groups to create co-branded marketing pieces such as banners, custom web pages, e-mails, guides, and brochures.

FIDELITY INVESTMENTS

Senior Writer/Design Lead, Fidelity Web Design

May 2007 – June 2009

- Developed editorial strategies to meet business partners' project goals and anticipate user needs.
- Oversaw development and application of editorial style guide.
- Wrote and edited content and documentation for multiple Fidelity sites and platforms.

BEDFORD/ST. MARTIN'S

Editor, Music and Developmental English

October 2004 – May 2007

- Acquired books and media for various courses through pursuit of best-in-field authors.
- Developed book proposals, edited manuscripts, and prepared sales briefs for proposed projects.
- Created and managed focus groups and survey programs to evaluate proposals and revisions.

ADDITIONAL PROFESSIONAL EXPERIENCE

BOSTON GLOBE

Parenting Advice Columnist

January 2015 – December 2016

IMPROVBOSTON

Head of Writing Department

April 2008 – January 2010

EDUCATION

BOSTON UNIVERSITY

May 2000

- BS in Journalism, BA in Philosophy
