Hi Donna and Patricia,

Concerning our repair work to the exterior brickwork at 10-20 Main Street in Natick. Because of the continued rain over the past month, we are requesting a one month extension to complete this work. If possible we would like an extension until November 30<sup>th</sup> to complete the work.

Thanks for your consideration. Please let us know if you have any questions or need any additional information.

Thanks

Tom

To: Brian Lauzon <lauzon@natickpolice.com>

Brian, can I get a recommendation from you? They are looking to extend for another month.

Trish,

We would Recommend approval. I also would recommend that the contractor find private off street parking for his employees and equipment as we start approaching the holiday shopping season. Currently they have been taking on-street public spaces in the downtown area and I am starting to get get concerns from the local business owners through our civilian parking enforcement officers. Lastly, I would recommend that the Board consider looking at this as a final extension as we will be heading into the winter months and this work and equipment could impact the Town's ability when it comes to snow removal and safe pedestrian and vehicle passage through the area.

Respectfully submitted,

Lt. Brian G. Lauzon

Tom, we can put this on the 10/29 agenda for the selectmen's consideration. The police department is going to recommend that you find private off-street parking for yourself and your employees and equipment as we will be approaching the holiday shopping season and since some concerns have been raised about the extended use of on-street parking in public spaces. The police department is also going to recommend that this be the final extension since we will be entering the winter months and and snow removal and safe pedestrian and vehicle passage could become a problem. You might want to plan on attending the 10/29 meeting to answer any questions the selectmen may have.
