Trish,

After reviewing the request and making a site visit with the petitioner we would recommend approval. In speaking with the petitioner we agreed on Paramount Television requesting three police detail officers due to the complexities of filming at this location on a weekday during day light ours. One police detail would be assigned to the intersection of School Street and Bee Street to control access to the Post Office. The other two would be there to assist with vehicle and crowd management. Lastly, we request that the petitioner maintain continued communications with me so that we can put the parking and roadway restrictions in place only when needed so that disruption of peoples day to day business and access to this area is only interrupted when necessary.

Respectfully submitted,
Lt. Brian G. Lauzon

I should have been more specific. The police details are for the "Filming" day only.
