Natick School Committee  
c/o Chair Julie McDonough  
13 E. Central Ave.  
Natick, MA 01760

Dear Ms. McDonough,

Thank you for taking the time to review my resume. I am writing to express my interest in the School Committee position being made vacant by the resignation of Lisa Tabenkin. As a Natick Town Meeting Member and the proud parent of three rising fourth graders, I am deeply committed to ensuring our schools are able provide an excellent education for all our students. I believe my skills and experience would be an asset to School Committee, and I ask that you consider me for appointment to the vacancy.

As a scientist, I bring expertise in data analysis and interpretation, strategic planning, and the ability to communicate complex ideas to a variety of audiences, all which I see as being at the heart of what School Committee does. My time as a parent representative to Lilja School Council has given me insights into how policies and initiatives are implemented at the building level and some of the challenges that can arise along the way. As a parent to children who receive learning supports via an IEP and a 504 plan, I am acutely aware of the struggles of navigating the special education world and how it compares to parenting a typically developing child. I feel that a special education voice would be a valuable addition to School Committee and would enrich discussions about curriculum, resources and the student/parent experience.

I would be honored to join you and the rest of the School Committee members in your efforts to make our schools the best they can be and look forward to an opportunity to further discuss my candidacy.

Again, thank you for taking the time to review my resume.

Sincerely,

Elise Gorseth
