Re: Morse Pond Well Replacement Award

Dear, Mr. Comeau

On June 2, 2020 three (3) bids were received for the project entitled "Morse Pond Well Replacement" in the Town of Natick, Massachusetts. We are attaching a Canvas of Bids and have summarized the two bids below.

- | | | |
|----|------------------------|--------------|
| 1. | Denis L. Maher Company | \$198,462.00 |
| 2. | Maher Services | \$244,005.00 |
| 3. | Weston & Sampson | \$270,790.00 |

The low bid submitted by Denis L. Maher Company appears to be in order. We recently contacted three (3) project references for Denis L. Maher Company for the Evergreen #3 ell project in Natick, and received three generally positive responses, indicating there were no issues on their projects. We recently worked with them on a gravel packed well installation in another community with no issues.

We had estimated the project at \$290,000, which included installation of four (4) gravel packed wells. All three bids were under our estimated cost and within available funds.

We feel, based on the positive results of the previous reference checks and completed project list, that Denis L. Maher Company has the equipment, resources and experience to perform the work in accordance with the contract documents and within the specified time frame.

Please review this letter with the Board of Selectmen, if you have any question on the responses and/or this letter, please feel free to contact our office.

Sincerely,
Haley and Ward a Division of CES, Inc.

Gregory J. Eldridge, P.E.
Vice President ♦ Senior Project Manager

CC: Jeremy Marsette, Bryan Leblanc

Enclosures: Canvass of Bids
