

Memorandum

To: Natick Select Board

CC: Melissa Malone, Town Administrator
James Erickson, Deputy Town Administrator, Operations

From: Jillian Wilson Martin, Sustainability Coordinator

Date: August 10, 2020

Subject: Vote on Aggregation Procurement and Proposed Policy

The Town of Natick's current contract for Community Choice Electricity Aggregation will end with December 2020 meter reads. To continue the program and allow for a seamless transition of customer accounts, the Town must procure a new supplier in September.

To support this procurement, we request a vote from the Select Board that:

- Defines the amount of additional clean electricity Natick's default aggregation product will include (sourced from Class I Renewable Energy Certificates),
- Clarifies the maximum allowable contract length, and
- Authorizes the Town Administrator to sign a contract on bid day.

We would also greatly appreciate a vote from the Select Board regarding the adoption of the proposed policy to achieve 100% clean electricity through the aggregation by 2030 (presented during the Board's meeting on August 5, 2020).

Thank you.
