Subject: Winter Gas Rate Adjustments for Eversource Customers
To: Lauziere, Sean E <sean.lauziere@eversource.com>

Good Morning,

Keeping the lines of communication open is very important to Eversource as we provide natural gas service to your residents. In keeping with that commitment, we are reaching out to inform you of seasonal winter rate adjustments that have gone into effect on November 1 and others that will take effect on December 1, 2020. The attached fact sheet provides rate details for all the adjustments and the estimated impact on customers. The supply rate change is solely based on the gas supply rate that is adjusted seasonally--summer and winter--to cover the actual market costs of procuring gas for customers with no profit to Eversource. The distribution rate increases are other annual adjustments effective Nov. 1 to the delivery portion of the bill. These rate changes will be followed by a distribution rate change that will take effect Dec. 1 after a year-long rate review by the DPU.

We recognize the challenges customers are facing with the pandemic and realize this will be difficult for many as they continue to work and study from home, requiring more heat usage than in previous winters. We are proactively communicating with customers about this rate adjustment and are encouraging them to reach out for help even if they haven't needed it before.

If you have any questions about the rate adjustment or ways we can assist your residents, please feel free to contact me.

Sincerely,

Sean Lauziere, MPA | Community Relations & Economic Development
