

## **Complete Streets Online Tool**

Select Board Meeting - February 10, 2021

- The Complete Streets Grant Program allows the Town to make street improvements to make roads safer for all users including pedestrians, bikers, public transportation users, and drivers.
- There is now an interactive tool linked from the Town website that allows people who live and work in Natick to suggest areas where future Complete Streets projects are useful by marking the location on a map.
- A link to the tool can be found on the frontpage of the Town website or by going directly to [natickma.gov/1331/Complete-Streets](http://natickma.gov/1331/Complete-Streets).
- This tool and an update to the Complete Streets plan was funded by Town Meeting in Fall 2020 under a Capital article.
- The input we receive will be valuable for other capital programs.
- The tool will be live at least through February.
