RE: Acceptance of Donation from the Friends of the Natick Senior Center

+++++

The Friends of the Natick Senior Center have generously funded a request in the amount of \$4,800.00 by the Natick Council on Aging to underwrite the cost to disinfect the COA's Natick Connector vehicle daily through the end of the fiscal year.

Transportation is an essential service that connects seniors with medical and other essential services. The Natick Connector has been operating daily since August 1st and provides an average of 40 rides per week. The continuous support and donations from the Friends of the Natick Senior Center is greatly appreciated.

The donation will be directed to Account # - 23074-484060
