Re: Eversource Electric – Grant of Location Felch Road

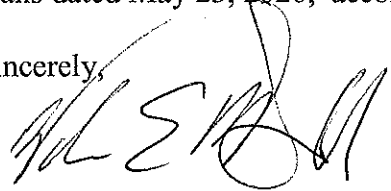

Mister Chairman & Members of the Board:

Eversource has requested a Grant of Location to install one (1) new pole (297/22A) on Felch Road near House No. 63 Felch Road. This work is necessary eliminate a long free span between two existing poles which has allowed a significant sag in the conductor. The addition of this pole would raise the conductor and improve safety in the area.

As stated in Article 78 in the Natick Town Bylaws, no utility shall be permitted to install, construct, upgrade or replace any poles, overhead wires or associated overhead structures upon, along or across any public way or ways located within Natick unless the Board of Selectmen grants special permission. Felch Road, in this location, is a Town accepted way.

The Engineering Division has reviewed the request and inspected the location for the proposed pole. The Division does not object to the proposed location of the pole if placed in accordance with the plans dated May 23, 2020, accompanying the petition. (Pole highlighted by Eng. Div.)

Sincerely,

William E. McDowell, P.E.

Hearing Required

Dear Mr. Digiacomio:

The enclosed petition and plan are being presented by the NSTAR ELECTRIC COMPANY d/b/a as EVERSOURCE ENERGY and VERIZON for obtaining a Grant of Location to install one (1) new pole 297/22A.

This work is necessary to reduce long span distance between existing poles in order to raise overhead wires. All utility wires are too low (safety).

If you have any further questions, contact Chris Cosby @ (508) 305-6989.
Your prompt attention to this matter would be greatly appreciated.

Very truly yours,
