Joan,

I have discussed this with Mr. Gusmini, the town's Building Commissioner and agreed that we would recommend that the Select Board approve this with the following conditions:

1. The scaffolding be protected with "scrim" so that falling debris does not hit pedestrians below;
2. The underside of the scaffolding be illuminated so as to allow for safe passage at night;
3. The scaffolding either be removed prior to embarking into the winter snow season;
4. All safety and/or advisory signage as directed by the Building Commissioner be placed so as to safely guide pedestrians.
5. Parking for construction vehicles be arranged off street in advance so that they do not interfere with customer parking for the local businesses.

Respectfully submitted,

Lt. Brian G. Lauzon

Good morning Brian,

Attached please find the documentation from M2R Construction requesting to occupy a public way starting October 12, 2021. You will also see below M2R's formal request.

Please let me know of your recommendation.

Thank you,

Joan

M2R Masonry Restoration Inc will :

Erect pipe staging with netting protection to protect neighbors' property and pedestrians. All the necessary safety equipments will be used. This project will take about 4-6 weeks.

We are Planning to start on Oct 12, 2021.
