**Why are you interested in serving on a board or commission? Are there any changes you would like to see to these boards, committees and/or commissions?**

---

After moving to town in 2018, I became involved with the Sustainability Committee and attended their meetings at their invitation in 2021. I worked with their sub-group as a planner in the Clean Energy Challenge and hosted an Open House at my home for those interested in seeing and learning about Heat Pumps. I am passionate about all areas of sustainability and helping Natick develop climate equity, conservation and quality of life. I applaud the work of Jillian, her committee and the work of many other volunteers helping the town. The Governance model and functioning of our town is sub-optimal for dealing with the crises which confront us in the 21st century. I plan to take the next available Natick Community Service Citizen's Leadership Academy course when I can attend all the sessions in person.
