

TOWN OF NATICK MASSACHUSETTS

TO: Natick Select Board
James Errickson, Town Administrator
Jon Marshall, Deputy Town Administrator - Operations
William Spratt, Executive Director, Natick Public Works and Natick Public Facilities
Brian Caissie, Supervisor, Highway/Sanitation Division, Natick Public Works

FROM: Bryan R. Le Blanc, Procurement Officer

DATE: February 14, 2023

SUBJECT: CONTRACT AWARD
Crack Sealing/Natick Public Works

On February 8, 2023, the Metropolitan Area Planning Council (MAPC), a consortium in which Natick participates, opened bids pursuant to M.G.L. c. 30, §39M, for crack sealing services. (The deadline had been extended from the earlier due date of January 25, 2023.) The Town participates in a cooperative bid through the MAPC on a three (3)-year cycle for such services. Sealcoating, Inc. dba Indus, 825 Granite Street, Braintree, MA 02184 was the lowest responsible and eligible (and only) bidder. It submitted line items as noted in the attached bid, with a total box bid for all estimates for all communities of \$455,400.00. This figure featured prices: for regular asphalt (\$10.66/gallon) and for modified asphalt (\$12.65/gallon).

The Town will be items at the rates specified in the bid (\$10.66/gallon for asphalt and \$12.65/gallon for modified asphalt). There is no requested limit on such rates. Funding will be from the DPW Operating Budget. The Town has historically spent between \$50,000 and \$100,000 for crack sealing services on an annual basis; however, the number is expected to rise due to inflationary factors in the present economy.

We recommend that the Natick Select Board award a contract through December 31, 2023. It is eligible for up to two (2) additional one (1)-year renewal options.

Please advise if you have any questions or require additional information.

LEGAL NOTICE OF INVITATION FOR BIDS - METROWEST CONSORTIUM

The Metropolitan Area Planning Council (MAPC) on behalf of the MetroWest Regional Services Consortium (Consortium) representing the following municipalities: Ashland, Millis, Natick, Sherborn, Southborough, and Wellesley invites bids for the following public works services and materials to be provided to the Participating Member Municipalities through December 31, 2023, with the possibility of two 1-year extensions:

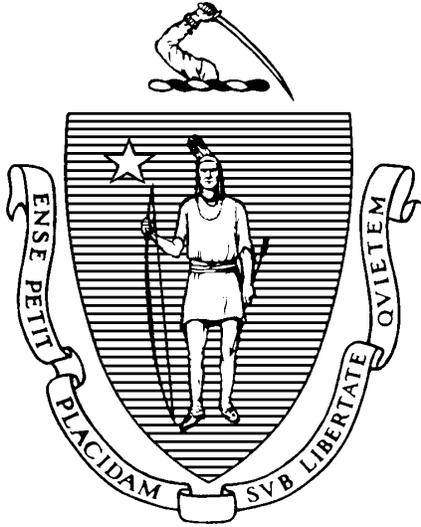

Item #	Description	Estimated One Year Contract Value	MassDOT Prequ
5A	Crack Sealing – Asphalt Fiber Reinforced Compound	\$65,350.00	Y
5B	Crack Sealing – Modified Asphalt-Fiber Reinforced Compound	\$360,000.00	Y
6	Pavement Markings	\$259,490.00	Y

MAPC is administering this procurement on behalf of the Consortium and the Participating Member Municipalities. MAPC will identify responsible and responsive low bidders and make recommendations of award. Individual contracts will be executed between the Participating Member Municipalities and the low bidders. The Participating Member Municipalities reserve the right to accept or reject such recommendations and to award contracts with the low bidders as deemed in their best interest. MAPC and the Consortium reserve the right to accept or reject any and all bids or portions thereof, to waive any informalities in bidding, and to recommend awards as appear in the best interest of the Consortium and its members.

Bid documents may be obtained by contacting Kelsi Champley by email at kchampley@mapc.org, beginning December 28, 2022. Massachusetts Prevailing Wage Laws apply to all services. Bid Bonds, Performance Bonds, and Labor & Materials Payment Bonds are required. Bids will be accepted until 1:00 PM, January 25, 2023 at via Commbuys and email lockbox.

Please note that bids from Bidders not listed by MassDOT as prequalified in the specific class of work with a single contract limit at or above the dollar value of the projects or who are not listed on a waiver contractor bid list as of the day of the bid will be rejected. Vendors are advised that the initial contract term is for one year. MAPC reserves the right to extend the contract for two additional 12 month options. Valuation for purposes of MassDOT Prequalification is based on first year times three (3) to arrive at an estimated total Prequal. contract value. Contractors who are not prequalified to provide the services listed for the total Prequal. contract value, but meet the single year waiver threshold (+50% of year 1 prequalification; example \$100,000 limit = \$150,000 waiver) and want to bid, should submit a waiver request at least two (2) weeks prior to the bid opening to allow for time to appeal in the event that a waiver is not granted. The estimated value provided in this Invitation to Bid is for one (1) year. Vendors are expected to be able to provide their services over three (3) years at three (3) times the initial estimated value.

Bid Title:	MAPC Public Works Bid Notice (Pavement Markings/Crack Sealing) Obtain all documents from MAPC direct
Category:	Services
Status:	Open

Description:

<https://www.mapc.org/about-mapc/legal-notice-meetings/>

LEGAL NOTICE OF INVITATION FOR BIDS - METROWEST CONSORTIUM

The Metropolitan Area Planning Council (MAPC) on behalf of the MetroWest Regional Services Consortium (Consortium) representing the following municipalities: Ashland, Millis, Natick, Sherborn, Southborough, and Wellesley invites bids for the following public works services and materials to be provided to the Participating Member Municipalities through December 31, 2023, with the possibility of two 1-year extensions:

Item #	Description	Estimated One Year Contract Value	MassDOT Prequal. Required
5A	Crack Sealing – Asphalt Fiber Reinforced Compound	\$65,350.00	Y
5B	Crack Sealing – Modified Asphalt-Fiber Reinforced Compound	\$360,000.00	Y
6	Pavement Markings	\$259,490.00	Y

MAPC is administering this procurement on behalf of the Consortium and the Participating Member Municipalities. MAPC will identify responsible and responsive low bidders and make recommendations of award. Individual contracts will be executed between the Participating Member Municipalities and the low bidders. The Participating Member Municipalities reserve the right to accept or reject such recommendations and to award contracts with the low bidders as deemed in their best interest. MAPC and the Consortium reserve the right to accept or reject any and all bids or portions thereof, to waive any informalities in bidding, and to recommend awards as appear in the best interest of the Consortium and its members.

Bid documents may be obtained by contacting Kelsi Champley by email at kchampley@mapc.org, beginning December 28, 2022. Massachusetts Prevailing Wage Laws apply to all services. Bid Bonds, Performance Bonds, and Labor & Materials Payment Bonds are required. Bids will be accepted until 1:00 PM, January 25, 2023 at via Commbuys and email lockbox.

Please note that bids from Bidders not listed by MassDOT as prequalified in the specific class of work with a single contract limit at or above the dollar value of the projects or who are not listed on a waiver contractor bid list as of the day of the bid will be rejected. Vendors are advised that the initial contract term is for one year. MAPC reserves the right to extend the contract for two additional 12 month options. Valuation for

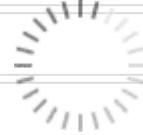

purposes of MassDOT Prequalification is based on first year times three (3) to arrive at an estimated total Prequal. contract value. Contractors who are not prequalified to provide the services listed for the total Prequal. contract value, but meet the single year waiver threshold (+50% of year 1 prequalification; example \$100,000 limit = \$150,000 waiver) and want to bid, should submit a waiver request at least two (2) weeks prior to the bid opening to allow for time to appeal in the event that a waiver is not granted. The estimated value provided in this Invitation to Bid is for one (1) year. Vendors are expected to be able to provide their services over three (3) years at three (3) times the initial estimated value.

Note that bids from Bidders not listed by MassDOT as prequalified in the specific class of work with a single contract limit at or above the dollar value of the projects or who are not listed on a waiver contractor bid list as of the day of the bid will be rejected. Valuation for purposes of MassDOT Prequalification is based on first year multiplied by three (3) to arrive at an estimated total Prequal. contract value. Contractors who are not prequalified to provide the services listed for the total Prequal. contract value, but meet the single year waiver threshold (+50% of year 1 prequalification; example \$100,000 limit = \$150,000 waiver) and want to bid, should submit a waiver request at least two (2) weeks prior to the bid opening to allow for time to appeal in the event that a waiver is not granted. The estimated value provided in this Invitation to Bid is for one (1) year. Vendors are expected to be able to provide their services over three (3) years at three (3) times the initial estimated value.

Public Works Services and Materials

- m. By submitting a Bid, a Bidder indicates acceptance of all terms and conditions of this IFB.
- n. Nothing in this IFB will compel a Participating Member Municipality to award a Contract. MAPC may cancel this IFB, may waive any informalities to the extent allowed by law, , and may reject any and all Bids, if MAPC, in its sole discretion, determines said action to be in the best interest of MAPC or the Participating Member Municipalities. MAPC may reject as nonresponsive any Bid that fails to satisfy any of the Bid Submission Requirements.
- o. The Successful Bidder shall, within ten (10) days after presentation thereof by a Participating Member Municipality, execute a Contract in accordance with the terms of this IFB, in the form of the attached Contract.
- p. The Successful Bidder who enters into a Contract with a Participating Member Municipality shall be responsible for obtaining, at his/her/its own expense, all appropriate federal, state and local permits, licenses and approvals.
- q. A Participating Member Municipality may terminate any such Contract upon written notice to the Contractor if a source of money to fund the Contract is lost during the Contract term. In the alternative, the parties may agree in writing to amend any such Contract to provide for a Contract price which represents a reduced appropriation for the Contract term.
- r. Prevailing wage rates as determined by the Commissioner of the Massachusetts Department of Labor and Workforce Development under the provisions of the M.G.L. c. 149 §§ 26 to 27G, as amended, apply to this work. It is the responsibility of the Bidder, before Bid opening, to request, if necessary, any additional information on Minimum Wage Rates for those trades who may be employed for the proposed work under any such Contract awarded.
- s. M.G.L. c 30 § 39M and M.G.L. c. 30B shall govern all procedures and are incorporated herein by reference.
- t. For further information, please refer to the succeeding sections, with which each Bidder shall comply in submitting a Bid.

3. Estimated Quantities

- a. This IFB recites quantities of services and/or goods that reflect estimates of the work to be engaged in by the Participating Member Municipalities during the initial contract term and each possible extension. Estimated quantities will be used for comparison of bids, determining the Low Bidder and establishing the Bid Bond/Deposit and Performance Bond amounts. The quantities, as estimated, may or may not be purchased during a contract term or extension. Each member municipality reserves the right to exceed or not meet the estimated quantities as its needs dictate. Participating Member Municipalities that have not listed estimated quantities may partake of the goods and services as bid.

4. Pre-Bid Conference

- a. No pre-bid conference will be held for this IFB.

5. Bidder Eligibility

- a. Bidders must comply with all requirements of this IFB in order to be considered eligible for award.
- b. Please note that bids from Bidders not listed by MassDOT as prequalified in the specific class of work with a single contract limit at or above the dollar value of the projects or who are not listed on a waiver contractor bid list will be rejected.

6. Award

- a. MAPC and the Consortium do not award contracts. MAPC and the Consortium will identify valid Low Bidders (i.e. the responsive—bidders who comply with all requirements for submittal of bids—and responsible—Bidders who are listed by MassDOT as prequalified in the specific class of work with a single contract limit at or above the dollar value of the projects or who are listed on a waiver contractor bid list and whose references are satisfactory to the Participating Member Municipalities—bidders offering the lowest aggregate prices as indicated on the Item-specific Bid Price Forms) and will present the Bidder's executed Contractual Agreement for Public Works Services to Participating Member Municipalities for their action.
- b. Award recommendations will be based on the prices enclosed in bold borders \$ xxx,xxx.xx as indicated on the Bid Price Forms. Bid Price Form arithmetic is apparent.

- d. Low Bidders and Second Low Bidders will be identified for each of the Bid Items shown on the Bid Price Forms as the subject of an award.
- e. In the event of a Tie Bid, the winning bidder will be determined by the following means:
 1. Tied bidders will be required to submit revised bids of equal or lower value. Such bids shall be received, opened, and publicly read at a time, date, and place specified by MAPC no sooner than three (3) business days and no more than five (5) days after notification to the tied bidders.
 2. By submitting a bid, bidders acknowledge and agree to the tie-breaking method selected by MAPC.

7. Contracts

- a. All Low Bidders and all Participating Member Municipalities will be presented with a Contractual Agreement for Public Works Services for execution and inclusion with their bids. One Contract will result for each Bid Item identified for individual award. Each contract will separately and individually bind each Participating Member Municipality and each Low Bidder. The parties to this Agreement shall not construe the use of a single uniform document signed by a Low Bidder and multiple Participating Member Municipalities as a contract with a single entity, the Consortium. Instead, it shall stand as a contract between each Low Bidder and each Municipal signatory. Scheduling, supervision, inspections, financial transactions, disputes and other contractual matters shall remain the affairs of the individual signatories to which they apply, having no direct or indirect bearing on any other party.
- b. The uniform contractual agreement used by all parties shall be the Contractual Agreement for Public Works Services contained in this IFB. (Refer to Form I – Contract). The Contractual Agreement must be completed, signed, sealed (if applicable), and submitted along with the Bid. (See Section 10, How to Submit a Bid)
- c. Contracts resulting from this IFB will be made by and between Low Bidders and individual Participating Member Municipalities. Participating Member Municipalities make separate local decisions regarding contract execution. Consortium recommendations for award do not constitute a commitment or obligation by its Participating Member Municipalities to enter into such contracts.
- d. Contracts resulting from this IFB will be non-exclusive. Participating Member Municipalities reserve the right to do work of the type of the type covered by a resulting contract with their own forces or with other contracts.
- e. In addition, Letters of Availability (See Form H) will be executed between the Next Lowest Bidders and Participating Member Municipalities to ensure that they will guarantee their bid prices for the applicable contract periods in the event a Member Municipality exercises its rights under General Terms and Conditions, Section 3e: Engaging the Next Lowest Bidder. The Letter of Availability (Form H) must be completed, signed, sealed (if applicable), and submitted along with the Bid. (See Section 10, How to Submit a Bid.)
- f. Contracts will be in effect from their dates of execution through December 31, 2023. Each contract will be eligible for two (2) additional one (1) year extensions, ending December 31, 2024 and December 31, 2025.

Appendix B – MassDOT Price Adjustment Clauses

The following unnumbered pages contain the MassDOT Price Adjustment Clauses.

DOCUMENT 00812

SPECIAL PROVISIONS
MONTHLY PRICE ADJUSTMENT FOR DIESEL FUEL AND GASOLINE –
ENGLISH UNITS

Revised: 01/26/2009

This monthly fuel price adjustment is inserted in this contract because the national and worldwide energy situation has made the future cost of fuel unpredictable. This adjustment will provide for either additional compensation to the Contractor or repayment to the Commonwealth, depending on an increase or decrease in the average price of diesel fuel or gasoline.

This adjustment will be based on fuel usage factors for various items of work developed by the Highway Research Board in Circular 158, dated July 1974. These factors will be multiplied by the quantities of work done in each item during each monthly period and further multiplied by the variance in price from the Base Price to the Period Price.

The Base Price of Diesel Fuel and Gasoline will be the price as indicated in the Department’s web site (www.mhd.state.ma.us) for the month in which the contract was bid, which includes State Tax.

The Period Price will be the average of prices charged to the State, including State Tax for the bulk purchases made during each month.

SPECIAL PROVISIONS
MONTHLY PRICE ADJUSTMENT FOR HOT MIX ASPHALT (HMA) MIXTURES
ENGLISH UNITS
Revised: 02/02/2009

This provision applies to all projects using greater than 100 tons of hot mix asphalt (HMA) mixtures containing liquid asphalt cement as stipulated in the Notice to Contractors section of the bid documents.

The Price Adjustment will be based on the variance in price for the liquid asphalt component only from the Base Price to the Period Price. It shall not include transportation or other charges. This Price Adjustment will occur on a monthly basis.

Base Price

The Base Price of liquid asphalt on a project as listed in the Notice to Contractors section of the bid documents is a fixed price determined at the time of bid by the Department by using the same method as for the determination of the Period Price detailed below.

Period Price

Please note that, starting December 15, 2008, two sets of period prices will be posted each month on the MassHighway website at <http://www.mhd.state.ma.us/>. They will be labeled "New Asphalt Period Price Method" and "Old Asphalt Period Price Method".

New Asphalt Period Price Method

The "New Asphalt Period Price Method" is for contracts bid after December 15, 2008 and will show the Period Price of liquid asphalt for each monthly period as determined by MassHighway using the average selling price per standard ton of PG64-28 paving grade (primary binder classification) asphalt, FOB manufacturer's terminal, as listed under the "East Coast Market - New England, Boston, Massachusetts area" section of the Poten & Partners, Inc. "Asphalt Weekly Monitor". This average selling price is listed in the issue having a publication date of the second Friday of the month and will be posted as the Period Price for that month. MassHighway will post this Period Price on this website within two (2) business days following their receipt of the relevant issue of the "Asphalt Weekly Monitor". Poten and Partners has granted MassHighway the right to publish this specific asphalt price information sourced from the Asphalt Weekly Monitor.

Old Asphalt Period Price Method

The "Old Asphalt Period Price Method" Period Price will be for contracts bid on or before December 15, 2008 and will contain liquid asphalt prices as determined by the old or previous method. These prices will continue to be posted on MassHighway's website until all contracts using the "Old Asphalt Period Price Method" Period Price have been closed.

New and Old Asphalt Period Price Methods

The paragraphs below apply to both the New and the Old Asphalt Period Price Methods.

The Contract Price of the hot mix asphalt mixture will be paid under the respective item in the Contract. The price adjustment, as herein provided, upwards or downwards, will be made after the work has been performed, using the monthly period price for the month during which the work was performed.

The Price Adjustment applies only to the actual virgin liquid asphalt content in the mixture placed on the job in accordance with the Standard Specifications for Highways and Bridges, Division III, Section M3.11.03.

The Price Adjustment will be a separate payment item. It will be determined by multiplying the number of tons of hot mix asphalt mixtures placed during each monthly period times the liquid asphalt content percentage times the variance in price between Base Price and Period Price of liquid asphalt.

This Price Adjustment will be paid only if the variance from the Base Price is 5% or more for a monthly period. The complete adjustment will be paid in all cases with no deduction of the 5% from either upward or downward adjustments.

No Price Adjustment will be allowed beyond the Completion Date of this Contract, unless there is a Department approved extension of time.

SPECIAL PROVISIONS
PRICE ADJUSTMENT FOR PORTLAND CEMENT CONCRETE MIXES

January 12, 2009

This provision applies to all projects using greater than 100 Cubic Yards (76 Cubic Meters) of Portland cement concrete containing Portland cement as stipulated in the Notice to Contractors section of the Bid Documents. This Price Adjustment will occur on a monthly basis.

The Price Adjustment will be based on the variance in price for the Portland cement component only from the Base Price to the Period Price. It shall not include transportation or other charges.

The Base Price of Portland cement on a project is a fixed price determined at the time of bid by the Department by using the same method as for the determination of the Period Price (see below) and found in the Notice to Contractors.

The Period Price of Portland cement will be determined by using the latest published price, in dollars per ton (U.S.), for Portland cement (Type I) quoted for Boston, U.S.A. in the **Construction Economics** section of *ENR Engineering News-Record* magazine or at the ENR website <http://www.enr.com> under **Construction Economics**. The Period Price will be posted on the MassHighway website the Wednesday immediately following the publishing of the monthly price in ENR, which is normally the first week of the month.

The Contract Price of the Portland cement concrete mix will be paid under the respective item in the Contract. The price adjustment, as herein provided, upwards or downwards, will be made after the work has been performed, using the monthly period price for the month during which the work was performed.

The price adjustment applies only to the actual Portland cement content in the mix placed on the job in accordance with the Standard Specifications for Highways and Bridges, Division III, Section M4.02.01. No adjustments will be made for any cement replacement materials such as fly ash or ground granulated blast furnace slag.

The Price Adjustment will be a separate payment item. It will be determined by multiplying the number of cubic yards of Portland cement concrete placed during each monthly period times the Portland cement content percentage times the variance in price between the Base Price and Period Price of Portland cement.

This Price Adjustment will be paid only if the variance from the Base Price is 5% or more for a monthly period. The complete adjustment will be paid in all cases with no deduction of the 5% from either upward or downward adjustments.

No Price Adjustment will be allowed beyond the Completion Date of this Contract, unless there is a Department-approved extension of time.

SPECIAL PROVISIONS
PRICE ADJUSTMENT FOR STRUCTURAL STEEL AND REINFORCING STEEL
ENGLISH UNITS

December 1, 2008

This provision only applies to those projects that contain Price Adjustments for all structural steel and reinforcing steel as stipulated in the Notice to Contractors. When used, this provision applies to all structural steel and reinforcing steel. This provision does not apply to sole, masonry, and shim plates, bolts, pins, welds, or other miscellaneous steel. Price Adjustments will occur after submittal by the Contractor to the Department of certified paid mill invoices for the Contractor's purchase of unfabricated structural steel material, including, but not limited to, rolled shapes, plate steel, sheet piling, pipe piles, steel castings, steel forgings, guardrail, and unfabricated reinforcing steel bars.

Base Prices and Mill Prices shall be defined as follows:

Base Prices of unfabricated structural steel material and unfabricated reinforcing steel bars on a project are fixed prices determined by the Department and found in the Notice to Contractors.

Base Mill Prices of unfabricated structural steel material and unfabricated reinforcing steel bars on a project are the actual prices paid by the Contractor to a steel mill for this material and contained in certified paid invoices submitted to the Department by the Contractor.

Price Adjustments will be variances between Base Prices and Mill Prices.

Price Adjustments will *not* include the costs of shop drawing preparation, handling, fabrication, coatings, transportation, storage, installation, profit, overhead, fuel surcharges, or other such charges not related to the cost of the unfabricated structural or reinforcing steel itself. The invoiced weight of steel shall not exceed the final shipping weight of the fabricated part by more than 10%.

The Contractor will be paid for fabricated structural steel or fabricated reinforcing steel under the respective contract pay items for all components constructed of either structural steel or reinforced portland cement concrete.

Price Adjustments, as herein provided for and adjusted either upwards or downwards, will be paid separately. Price Adjustments will be determined by multiplying the number of pounds of structural steel material or unfabricated reinforcing steel bars contained in the Contractor's certified paid invoice by the variance between the Base Price and the Mill Price of the structural steel material or unfabricated reinforcing steel bars.

The Base Mill Price shall be contained in a certified paid invoice submitted by the Contractor to the Department as part of a notarized affidavit clearly stating the weight of material and the price paid to the steel mill for the structural steel material or unfabricated reinforcing steel bar.

Price Adjustments will be made only if variances between Base Prices and Base Mill Prices are 5% or more. Once the 5% threshold has been achieved, the adjustment will apply to the full variance from the Base Price.

No Price Adjustment will be made after the contract completion date, unless the Department has approved an extension of contract time for that contract.

Measurement and Payment

- a. Measurement for this bid unit shall be by the gallon and shall be the actual number of gallons of sealer applied to the pavement. Payment shall be at the unit price bid in the proposal and shall be complete payment for the entire item including furnishing, preparation and placing of materials, labor and equipment to be used on this project.
- b. Expansion of the overband by traffic or weather will result in a penalty equivalent to the ratio of the expansion to the overband. (Example: A one inch (1") expansion of a four inch (4") overband will result in a 25% reduction in the number of gallons paid.)
