

495/MetroWest area small businesses may be eligible for funding for energy improvements through Eversource's Main Streets Program. The program is time-limited and is coordinated with specific municipalities to connect business owners with no-cost energy assessments and proposals. Interested participants sign up for a no-cost, no-obligation energy assessment of your business. An Eversource-approved energy efficiency expert will reach out to schedule your assessment, to ensure minimal disruption to your daily operations. The program offers a wide variety of energy efficiency improvements, which will be specifically tailored to how your business uses energy. These include:

- New lighting controls
- Occupancy sensors
- Sensors for programmable thermostats
- Refrigeration controls

During the assessment, the energy efficiency expert will inspect your facility and provide your business with a customized list of energy efficiency improvements that can be made to your facility.

Consult the schedule to find out when Eversource will be in your area. Even if the date for your community has passed, you can still request an assessment. 495/MetroWest communities with scheduled dates this season include:

- Bellingham
- Framingham
- Millis
- Natick
- Shrewsbury
- Westborough

*A special webinar on the program will be co-hosted by Eversource, the 495/MetroWest Partnership, the Town of Natick, and the City of Framingham on Monday, April 3rd at 6:00 PM. [Click here to register for the webinar.](#) To learn more about the program, [click here](#)*
