Interests & Experiences

Why are you interested in serving on a board or commission? Are there any changes you would like to see to these boards, committees and/or commissions?

I have been interested in the CPA since serving on the original CPA study committee, which recommended that the Town adopt the CPA. I believe that investment in the areas addressed by the CPA - open space, historic preservation, and affordable housing - are all important for the quality of life of Natick residents.

Are you a graduate of the Natick Community Services Citizen's Leadership Academy?

☒ Yes ☐ No

Please list any skills or specialized knowledge you can bring to these boards, committees and/or commissions.

I have experience on Town Meeting and on several Town committees, and so am familiar with the operation of our local government. I believe I am able to listen respectfully to and work with those who disagree with me. As a geologist who spent her career in hazardous waste site cleanup, I have a longstanding interest in open space and a healthy environment. My husband and I are long-time members of the Natick Historical Society and I have been volunteering there since last year. Through my church's involvement as a founding member of Family Promise MetroWest, I have learned more about the need for affordable housing here in Natick.

Please list any professional affiliations.

former Licensed Site Professional (LSP; specialist in hazardous waste site assessment and cleanup); former member of the LSP Association; former Professional Geologist. I have let these certifications lapse since my retirement, as they are expensive to maintain, and I am no longer using them professionally.
