Natick becoming a Sanctuary City

I was born in Natick and currently live in Natick. I disagree that Natick should become a Sanctuary city.

I walked to the East Natick School across from the "scrubadub" when I was a child and would not feel safe walking there today. We were never made aware of this change. When do we vote on this?

Sanctuary cities have many negative consequences such as,

Public safety (vetting process not followed)

Federal Law violations (immigration status of residents is not recorded or submitted to the federal government).

Job losses

Public health issues

Strain on public education

Higher taxes

Lack of access to public resources (residents who lack access to basic resources like food, education, and healthcare).

depreciate home values.

Hearing about the Select Board meeting the other day, I feel all of the above is not being considered.

I moved here to give our children a great education and now we would be forced to move again.

How about Gloria Cascio, Ruby Garcia, Laken Riley and Jocelyn Nungaray!!! I am now a voice for them.
